- ROEDForward: RFQ email to 3 ranked carrier quotes; confidence-scored extraction, low-confidence fields to human review
- Stack: Claude, Gemini, Whisper, Next.js, Supabase, pgvector, Capacitor, Stripe, RevenueCat, Vercel, Sentry

Experience

One Legal, Product Manager, AI User Experience | July 2025 - Present

- Own the roadmap for an AI-native court filing platform; shipped its conversational assistant, which escalates to a human
- Defined AI PRDs and eval frameworks covering task completion, safety, and factuality to set alpha/beta/GA launch criteria
- Built the internal eval tool QA uses to score agent traces on honest, helpful, harmless, with review and a feedback loop

Walmart Marketplace, Senior Product Manager | 2023 - 2025

- Shipped a seller recommendation engine, 1,000-seller pilot to full rollout; +12% engagement, 23% same-session adoption
- Extended it as a contextual widget across ~19 Seller Hub tools, shown only when relevant; ~30% ARR lift on that surface
- Launched an AI content quality engine surfacing optimization opportunities to improve conversion and seller trust

eBay, Senior Product Manager | Jan 2023 - Oct 2023

- Shipped comparison and recommendation modules using collaborative filtering and ranking optimization; improved mobile discovery and conversion
- Led A/B testing roadmap with data science and engineering to optimize personalization ranking

Pod Foods, Growth Product Manager | 2021 - 2023

- Launched Pod Capital, an embedded fintech platform for partner brands
- Improved dashboard and workflow tools to cut manual work from operations and increase retention

Albertsons, Mobile Product Manager | 2020 - 2021

- Led onboarding within Albertsons' Deals and Delivery app; drove app activation across a 25M+ member loyalty base
- Shipped into the August 2021 app and loyalty program relaunch, moving a paper-coupon base onto mobile

Beans.ai, Founding Product Manager | 2018 - 2020

- Built apartment front-door geocoding accurate to ~5 feet, cutting apartment delivery time 50-70%; awarded a US patent
- Scaled V2 into batch routing with FedEx Ground contractors, sequencing dozens of stops per route by time and distance
